

12 BEST WEBSITES FOR **LEARNING WEB DEVELOPMENT**

Youssef Pro.NET

W3Schools - w3schools.com

The screenshot shows the W3Schools website homepage for HTML. The header includes navigation links: Tutorials, References, Exercises, and Videos (marked as 'NEW'). There are also links for 'Website' and 'Paid Courses', and a 'Log in' button. The main content area has a large 'HTML' heading with the subtitle 'The language for building web pages'. Below this are three buttons: 'Learn HTML', 'NEW Video Tutorial', and 'HTML Reference'. To the right, there is an 'HTML Example' section showing a code snippet for a basic HTML document structure, followed by a 'Try it Yourself' button.

```
<!DOCTYPE html>
<html>
<title>HTML Tutorial</title>
<body>

<h1>This is a heading</h1>
<p>This is a paragraph.</p>

</body>
</html>
```

Javatpoint - javatpoint.com

The screenshot shows the Javatpoint website homepage. The header features the 'java point' logo and a search bar. A green navigation bar lists various technologies: Home, HTML, XHTML, CSS, JavaScript, Bootstrap, jQuery, PHP, XML, JSON, Python, C++, Java, C#, and SQL. The main content area is divided into three columns. The left column contains a 'Web Designing Training' section with a list of topics under 'HTML Tutorial', including 'Introduction to HTML', 'What is HTML', 'HTML Text Editors', 'HTML Building Blocks', 'HTML tags', 'HTML Attributes', 'HTML Elements', 'HTML Formatting', 'HTML Heading', 'HTML Paragraph', 'HTML Phrase Tags', 'HTML Anchor', 'HTML Image', 'HTML Table', 'HTML Lists', 'HTML Ordered List', 'HTML Unordered List', 'HTML Description List', 'HTML Form', and 'HTML Form Input'. The middle column features an advertisement for a 'Going to college? Use the Right tool' by Casio, followed by an 'HTML Tutorial' section. The right column contains an advertisement for 'SME Free Zone Booster Packages' and 'Free Zone Business Start-up Packages' with a 'NOW FROM AED 9,450' offer, and a 'KIZAD' logo with an 'APPLY ONLINE' button.

HTML Tutorial

HTML tutorial or HTML 5 tutorial provides basic and advanced concepts of HTML. Our HTML tutorial is developed for beginners and professionals. In our tutorial, every topic is given step-by-step so that you can learn it in a very easy way. If you are new in learning HTML, then you can learn HTML from basic to a professional level and after learning HTML with CSS and JavaScript you will be able to create your own interactive and dynamic website. But Now We will focus on HTML only in this tutorial.

The major points of HTML are given below:

- HTML stands for HyperText Markup Language.

GeeksforGeeks - geeksforgeeks.org

The screenshot shows the GeeksforGeeks website with a dark green header. The navigation bar includes links for Problems, Courses, Get hired, and POED, along with a Practice button and a search icon. A 'Sign In' button is in the top right. The main content area features a course titled 'Fundamentals of Java and Java Collections' with a sub-label 'Online Course'. Below this is a large orange card with an illustration of a person climbing a ladder next to a steaming coffee cup. To the right of the card is the 'Course Description' which mentions Java Lambda Expressions, HashMap, Deque, and an in-depth explanation of Java collection frameworks. A green 'Login to Register' button is present. At the bottom of the card, a banner says 'Become a premium user and get additional 5% off'. A WhatsApp icon is in the bottom right corner.

How To Design A Simple UI When You Have A Complex Solution

DEC 11, 2020 in [UI](#) [User Experience](#)

Software and apps often solve very complex problems for businesses and consumers in the way of sales, marketing, finances, and so on. But offering a product that solves your users' problems isn't enough. If the UI is just as complex as the original problem, user churn is going to be high. Today, we're going to look at some tips for designing a simple UI regardless of your solution's
